DOSTRIDE

PROFESSIONAL SCRUM PRODUCT OWNER - ADVANCED (PSPO-A)

 **Duration:** 2 Days

 **Level:** Advanced

 **Time:** 9:00 - 17:00

 **Certification:** PSPO II

 **Type:** Remote; In -Person

 **Public:** Yes

 **Language:** German; English; Russian

 **In-House:** Yes

ABOUT THE COURSE

Professional Scrum Product Owner - Advanced (PSPO II) is a 2-day course that focuses on helping experienced practitioners expand their ability to establish a solid vision, validate their hypotheses, and ultimately deliver more value to their stakeholders. The PSPO-A course is intended for Product Owners who are looking to grow their knowledge and abilities. The course goes beyond the topics explored in the Professional Scrum Product Owner (PSPO) class by deepening the attendee's understanding of the role through the exploration of the many stances of a professional Product Owner. The course is a combination of instruction and team-based exercises where you will experience how to improve product development efforts.

Included in the course:

- 2 days of training
- Uniform Scrum.org maintained course materials according to Scrum Guide 2020
- Images of all flipchart and materials created during the class.
- Professional Scrum Product Owner II (PSPO II) exam with 2 free attempts.
- Discount for the Professional Scrum Product Owner III (PSPO III) assessment.

WHAT WILL YOU LEARN

- **The stances of the product owner:**
We will open the possibilities of the role and help attendees identify areas to grow into.
- **The customer representative:**
We'll review a range of techniques that can help get into the mindset of the customer and create products that people will want to use.
- **The visionary:**
An effective product owner looks beyond the work for the next 2-3 sprints and has a vision for the future. We'll review techniques for developing a compelling and inspiring strategy, and then to take the lead in executing that strategy.
- **The experimenter:**
A key part of optimizing the value of a product is to allow space for innovation and experimentation. We'll explore some structures to allow innovation to take place through hypothesis driven development techniques.
- **The decision maker:**
The product owner role is a political one, and often involves making decisions that please some but not others. We'll discover how to make better decisions, communicate those decisions as effectively as possible.
- **The collaborator:**
There is often a perceived conflict between agility and good governance or budget responsibility. We'll see how a product owner can collaborate effectively with sponsors and budget holders.
- **The influencer:**
Understanding and managing stakeholders is a key skill for product owners. We'll explore a range of approaches and models that will help you.

COURSE LEARNING OBJECTIVES

- Experienced Product Owners will learn different stances a Product Owner takes in order to navigate everyday challenges
- Modern complementary practices will be introduced through discussions, case studies and exercises
- Students will leave with a clear understanding of Agile Product Management as they continue on their Product Owner journey
- Learn about the various types of stakeholders that Product Owners represent and how to best work with them.

IS THIS COURSE FOR ME?

The Professional Scrum Product Owner-Advanced course is an advanced course specifically designed for Product Owners and product managers who have practical experience managing or owning a product. It is also beneficial to Scrum Masters and stakeholders who work with Product Owners. It is particularly beneficial for those with at least one year of building products with a Scrum Team and:

- are responsible for a product
- want to develop products that your customers love and that your Scrum team is proud of.
- want to increase product value for your customers and your organization.
- want to work with stakeholders and understand product owner accountability.
- have business responsibility over product

MEET THE TRAINER

Yevhen Domchenko

Scrum.org Professional Scrum Trainer (PST) | International Consortium of Agile Authorised Instructor | Management 3.0 Licensed Facilitator | Scaled Agile Framework Program Consultant (SPC) and Trainer | Professional InPerson und Remote Facilitator | Organisation und Relationship System Coach (ORSC)

I have many years of coaching experience with strong trainer, coaching and facilitation skills. I am an Agile enthusiast, and enabler. I lead Agile training and coaching for teams and leadership in complex and scaled environments, helping people and teams build better products and results.

My experience can be expressed in a few numbers:

- Hands-on experience from over 200 public and in-house training.
- Practical experience from several agile customer projects, teams and company transformations as Scrum Master, Product Owner, Agile Coach, Consultant, Team Member, Transformation Leader, RTE, SPC, Team Leader, Leadership and Manager in Agile and Hybrid environment.
- Trainings in German, English, Russian for different countries and cultures.
- Over 1000 certified training participants to date.

WHAT DO MY PARTICIPANTS SAY:

Trust Pilot ★★★★★

Best teacher!

The class gave me everything I hoped for and more, it helped me gain a working understanding of SCRUM and the role of the Scrum Master and I hope to return to Yevhen to further my knowledge of the subject matter one day.

Max G.

Trust Pilot ★★★★★

Very interactive and good teaching style

Yevhen thought a lot during the two days of the course. I really appreciated his interactive lessons with many real world examples.

Elena B.
